

NEQ Talks - Participation in the energy transition

Graduate School
for Sustainable Energy Systems
in Neighbourhoods

**Sonja Knobbe und
Dr. Jan-Hendrik Kamlage**

*Centrum für Umweltmanagement,
Ressourcen und Energie - CURE*

Sustainable energy systems need to meet the demands of modern society and at the same time be integrated into our built environment. Citizens also have a key role in the development and implementation of the energy transition, whether as owners, tenants, users or local stakeholders. They must therefore be involved in planning processes from the very beginning. At the first NEQ Talks event, we will discuss these and other aspects of participation in the energy transition with two experts from the field of research.

**March 18th 2021
6 to 7:30 pm**
